Art no: GV-9030

Art no:	GV-9030
Size:	8-11
Materials:	Goatskin, Spandex, Nylon, Fleece
Packaging:	6/60
Standard:	EN420, EN388:2016
Category:	II

EN388:2016

CATEGORY: II

2122X

Properties

Winter worker glove in goatskin leather with the upper hand in spandex. Sturdy leather reinforcements in both the index finger and the fingertips. Light reflective piping. Elastic seam at the wrist. Sturdy wristlet to keep wind and snow out of the gloves that also can be folded in for an even snugger fit. Equipped with a PVC coated fleece lining for better moisture resistance. If you need working gloves for heavy duty tasks but want to maintain fingertip sensitivity in cold environments, then these gloves are an excellent choice.

Material information

The glove is sewn in goatskin in the inner hand and lined with fleece lining. The upper hand is in spandex and the glove has fingertip reinforcement in goatskin. The mud is made of polyester. The glove is also provided with reflexes.

Technical facts: Intermediate design (category II)

How to read the pictogram:

EN388:2016

a b c d e f

abrasion resistance
cut resistance
tear resistance
puncture resistance
extended cut resistance
impact protection (optional)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
