HySafety

Art no:	HGS-1922G
Size:	7-11
Materials:	PU, Lycra, Terrycloth
Packaging:	12/120
Standard:	EN420, EN388:2016
Category:	II

CATEGORY: II

EN388:2016

1111X

Properties

Light premium glove in slim-fit design for a superior fit. Water repellent fabric on the upper hand. The glove has superior breathability and works well in both dry and wet environments. Elastic and durable premium PU on the inner hand for an excellent grip. Fingertip and finger reinforcements in PU. Soft terry cloth on the upper thumb for wiping the forehead. Low weight fleece lining reinforced to stay securely even if you take on the gloves with wet hands. Equipped with a wind and waterproof membrane that also is blood pathogen proof. Elastic seams at the wrist for a better fit. Pull tab on the inside of the cuff to quickly take on or off the glove. Adjustable cuff with a velcro lock.

Material information

The gloves are sewn in PU material and in lycra, it is also equipped with a froth for sweat removal. In the glove it is a fleece lining with blood and waterproof membrane.

Technical facts: Intermediate design (category II)

EN388:2016

a b c d e f

abrasion resistance
cut resistance
tear resistance
puncture resistance
extended cut resistance
impact protection (optional)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
