Properties

Knitted winterglove in polyester with superior fit and comfort even for use over long time. Equipped with a soft and warm acrylic liner brushed on the inside for increased thermal insulation and comfort. Nitrile coating with Sandy grip technology in the palm, over the full thumb and over the fingertips. The glove is abrasion resistant, oil resistant with an excellent grip in dry or oily conditions. Very comfortable glove with great breathability and firm fit.

Material information

Knitted winterglove in polyester with superior fit and comfort even for use over long time. Equipped with a soft and warm acrylic liner brushed on the inside for increased thermal insulation and comfort.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
