EN388:2016

2122X

Properties

Winter lined extra durable working glove made in goatskin leather. Triple-reinforced at the grip with three layers of leather. Fingertip and knuckle reinforced with leather. Upper hand in woven cotton fabric. The cuff is made of sturdy cotton canvas with artery protection in leather. Lined with a 40g Thinsulate liner. With all the extra reinforcements, this glove is very popular among chimney cleaners and rebar workers.

Material information

Sewn in goat grain with upper hand and cuff in cotton. Winter lining in Thinsulate 40g.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
