PRODUCT DATA SHEET

Grip

Art no: N-463

Art no:	N-463
Size:	10/XL
Material:	Cotton, Nitrile
Packaging:	12/120
Standard:	EN ISO 21420:2020
Category:	I

CAT: I

Properties

Glove with a cuff in jersey lining that is half coated in nitrile with a smooth surface. With high requirements on wear resistance and protection against cuts, puncture, and abrasion, this coated nitrile glove is the right choice. Excellent choice for the heavy industry where durability and quality are important requirements.

Material information

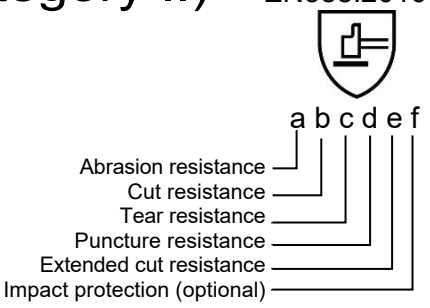

Glove with cotton liner dipped in a nitrile coating.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resist- ance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
