111

Properties

Winter glove in very supple and durable goatskin leather. Sturdy grip and fingertip reinforcements. Equipped with a wind and waterproof M-Tex™ membrane with superior breathability. Under the membrane is a warm fleece lining. The upper hand in black and grey spandex with a light reflective piping. Slip on style with a double elastic seam at the wrist for a safer fit. The glove is an excellent choice for all kinds of outdoor jobs.

Material information

The gloves are sewn in goatskin with fleece lining. An M-tex™ membrane is inserted into the glove. M-tex™ shuts out the water, and at the same time releases the hand sweat and keeps the hand dry and warm.

Technical facts: Intermediate design (category II)

EN388:2016

a b c d e f

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
