

Eco Bamboo

Art no: AD-88

Art no:	AD-88
Size:	6-11
Materials:	Bamboo fibre, Latex
Packaging:	12/144
Standard:	EN420, EN388:2016
Category:	II

EN420

CATEGORY: II

EN388:2016

2131X

Properties

Seamless knitted glove made of bamboo fibre, coated in 100% natural latex in the palm and over the fingertips. The latex has a rugged surface providing an excellent grip. The material is 100% biodegradable making it an environmentally friendly choice. No chemical additives have been used in the manufacturing process, making the fabric hypo allergenic with no skin irritation. Bamboo fibres have unique characteristics like softness, durability, breathability, naturally antibacterial and washability. In retail packaging.

Material information

Bamboo is free of chemical substances and is grown without pesticides. Bamboo is soft, cool and lean to the skin. It is naturally antibacterial and reduces any body odor. It reflects 50% more ultraviolet radiation than other materials and therefore provides more protection against the skin. The glove is tied in 13 gauge machines, which means 13 meshes per inch. The glove is dipped in latex so-called foam.

Technical facts: Intermediate design (category II)

EN388:2016

a b c d e f

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
