Goat skin

Reflective material

Winter lined

Properties

Winter glove made from goat skin in the palm with fingertip reinforcements. Upper hand in spandex with light reflective piping. The cuff is made from elastic neoprene for a safer fit. Winter lined with 40 grams Thinsulate™ lining all the way inside the cuff. Thumb grip reinforced and double stitching for increased durability. Elastic material between fingers and double elastic bands in the wrist for a better and safer fit.

Material information

The gloves are sewn in goat skin with spandex on the upper hand. Cuff in neoprene. Winter lining in 40 grams Thinsulate™.

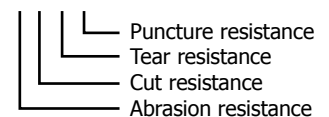

Technical facts: Intermediate design (category 2)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN 388 test methods and certified by a notified body. The testing is done for abrasion, cut, tear and puncture resistance. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4 and puncture resistance 4. Evaluate the importance of each of the properties and how it applies to you as a user.
