Chemical protection glove in specially formulated latex rubber with a minimum level of latex proteins. Smooth exterior surface. Cotton flocklined interior for comfort. Food handling approved. Silicone free. Length (mm): 300 +/- 10, Thickness (mm): 0.45 +/- 0.05

Material information

The gloves are made of latex.

Technical facts: Intermediate design (category II)

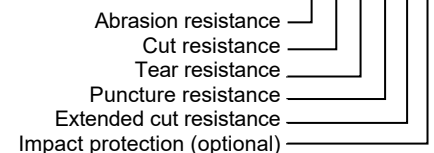

EN388:2016

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
