Goatskin

Properties

Light assembly glove in goatskin with winter lining. Upper hand is made in a durable grey polyester fabric. The index finger, fingertips and the grip is reinforced with goatskin leather. Reflective piping along the hand. Inner hand is made of goatskin leather. Half thumb made of goatskin leather with the upper side made in polyester fabric for increased breathability. Lined with a soft fleece lining. Broad elastic in the wrist with an adjustable velcro strap for a safer fit.

Material information

The gloves are sewn in leather skin with cotton tops. In the glove is a fleece lining.

Technical data

The CE standard EN 420 defines general requirements for protective gloves. This means that this standard sets out general requirements such as: suitability, design, product information, sizes, chromium content (max 2 mg Chromium VI per kg) and pH value in the range of 3.5-9.5
