| Standard: | EN420, EN388:2016 |
| Category: | II |

CATEGORY: II

EN388:2016

1111X

Properties

Extremely light and comfortable tactical glove in slim-fit design for superior fit, comfort and tactile precision. Top quality PU synthetic leather which is very thin for precision, but at the same time very durable with a firm and safe grip. Leather reinforcements on fingers, fingertip and thumb grip for added durability. Soft Terrycloth on the upper thumb for wiping goggles or the forehead. QuickDry fabric on the upper hand with excellent breathability and super stretch for extra comfort. Broad, sturdy but soft elastic cuff, adjustable with a Velcro lock for a safe and snug fit. Heavy duty pull tab at the end of the cuff for quick donning.

Material information

Tactical glove made of synthetic leather made of high quality PU. Terry towel and QuickDry fabric on the upper hand.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.

How to read the pictogram:
