EN511:2006

X2X

## Properties

Knitted winter glove in warm and soft acrylic keeping the hands warm in cold environments. Latex coating in the palm and over the fingertips with Sandy Grip technology providing an excellent grip in dry, wet and oily conditions. Fully coated thumb for increased durability and added thermal insulation properties.

## Material information

Knitted glove with latex coating in the inner hand and an elastic acrylic lining. The outer layer is made of Sandy Grip technology.

## Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.

How to read the pictogram:

EN388:2016

a b c d e f

abrasion resistance  
cut resistance  
tear resistance  
puncture resistance  
extended cut resistance  
impact protection (optional)
