Properties

Durable leather working gloves with built in high level chainsaw protection pad (20 m/s) in the upper left hand only, consisting of 18 layers of ballistic nylon fibre. Upper hand in waterproof and durable polyamide. Broad 3M® reflector over knuckles. The abrasion-resistant leather is soft and supple, giving the chainsaw user good control. Elasticated adjustable cuff with a velcro lock providing a snug fit to prevent sawdust from entering the glove.

Material information

The gloves are made of leather with 18 layers of ballistic nylon fiber. The above is made of waterproof polyamide.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional test) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.
