

Rigg winter

Art no **PV-237**

Sizes: **M-XXL**
Materials: **PVC, Cotton**
Package: **10/72**

Washable

PVC dipped

Fully coated

Oil resistance

Properties

Gloves with a cuff in jersey lining fully dipped in PVC with a rugged surface. The glove can endure everything from oil coated engine parts to grease and corrosive acids. The double PVC coating makes them extremely durable and remains supple even in cold conditions.

Material information

Double dipped in PVC with knitted wrist.

Technical facts: Intermediate design (category 2)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN 388 test methods and certified by a notified body. The testing is done for abrasion, cut, tear and puncture resistance. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4 and puncture resistance 4. Evaluate the importance of each of the properties and how it applies to you as a user.
