Product data sheet

Grip

Art no **N-464**

EN420 EN388

CATEGORY 2 4221

Sizes: Mens
Materials: Nitrile, Cotton
Package: 12/144

Washable

Nitrile dipped

Chemical resistant

Oil resistance

Half coated

Properties

Glove with a cuff in jersey lining which is half coated in nitrile with a granulated surface. With high requirements on wear resistance and protection against cuts, puncture, and abrasion, this coated nitrile glove is the right choice. Excellent choice for the heavy industry where durability and quality are important requirements.

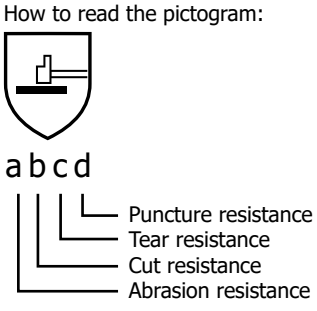

Material information

The glove is half dipped in nitrile on a jersey lining with cuff.

Technical facts: Intermediate design (category 2)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN 388 test methods and certified by a notified body. The testing is done for abrasion, cut, tear and puncture resistance. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4 and puncture resistance 4. Evaluate the importance of each of the properties and how it applies to you as a user.
